Please answer the questions below on a separate page. Feel free to include any other information which you think may be relevant.

1. Please tell us about the courses you have taken in university-level mathematics. We are particularly interested in your background in Number Theory and Abstract Algebra.
2. Do you have work experience that might be relevant to PROMYS? For example, have you ever participated in a program of this sort (such as the one at Ohio State University or Hampshire College)?
3. Please tell us about your mathematical interests. Why would you like to be a PROMYS counselor?
